EDUCATION

The Brandwag Highschool

2016 - 2020

During my high school years, I was immersed in the worlds of sports and leadership. I dedicated myself to the school's netball C team as a passionate netball player, where I improved my collaboration, communication, and strategic thinking skills on the field. Being a member of the hostel house committee allowed me to further my interest in leadership. On days that I was on duty in the house I had to oversee the running of day-to-day activities such as ringing the alert bells and keeping watch over study sessions. By balancing my academic responsibilities with these extracurricular activities, I was able to create a well-rounded and collaborative high school experience that enriched my learning journey.

Belgium Campus ITvercity

2021 - present

As a dedicated member of the Student Representative Council's (SRC) events team, I've had the privilege of adding my excitement and organizational talents into the creation of unforgettable experiences for my peers. Along with my dedication to improving campus life, I've maintained a 71.6% average, demonstrating my commitment to academic success. As I enter my final year, I am excited to combine my solid academic foundation with my hands-on experience to contribute to a lively and engaging university community.

WORK EXPERIENCE

Garden Boyz Assistant Mechanic

2017-2021

Assistant Mechanic with a background servicing lawnmowers and doing normal vehicle maintenance. Skill in identifying and correcting mechanical difficulties, assuring peak performance and dependability. Skilled at adhering to maintenance schedules, conducting inspections, and effectively carrying out repairs. Ability to operate effectively with a team, contributing to the workshop's overall operational efficiency. Committed to maintaining high quality and safety standards in all tasks. Seeking hands-on experience and technical expertise in a fast-paced work environment.

Shamrocks Bartender

2022My prior job as a bartender allowed me to polish my talents in the art of pouring drinks and creating a dynamic atmosphere. I took pride in my mixology skills, making certain that each cocktail was created with accuracy and attention to detail. My approach focused on customer service, as I engaged customers with a nice tone and delivered fast assistance. I enjoyed the challenge of handling high-volume orders while maintaining quality in fast-paced workplaces. I consistently kept the bar clean and orderly, which contributed to a pleasant client experience.
